

Friends of Falungong,

I couldn't hear our MC speaking. And I'm (only) standing this far away from her. I don't know whether you can hear me or not. Can you hear me?

These people over here should study the Fascist movement in Italy and the Fascist movement in Germany. And they would find that their tactics are very similar. They were used by Mussolini and Adolf Hitler. It is really frightening.

These people over here pretend to represent the youth of Hong Kong. I understand on visiting their offices.... Apple daily has discovered, that in fact they are the "610" offices from Beijing, operating in democratic Hong Kong. These people have no interest in Hong Kong.

I gather they are here because they are paid substantial amount of money to put on their green shirts. By the way, Mussolini's group wore black shirts and Hitler's group wore brown shirts. I (just) went over to see them, and they are not thinking people. They are here because they are paid to be here by the government in Beijing.

People of Hong Kong should support Falungong to avoid the kind of evil, the kind of nonsense, the kind of mindless blaring from megaphones that they are giving us.

Let me say very briefly something about Falungong. Falungong are practised (today) in 130 countries. In Canada, we have thousand of Falungong practitioners from all walks of life, from all ages, and from all parts of the country. We respect Falungong in Canada.

I've been to over 50 countries in the world and Falungong are respected in all these countries where they are. They were also respected in China. But people like these over here are doing their best to undermine the support that you should have. Isn't that true?

David Matas and I discovered that the "610" office is responsible to the persecution of Falungong in every part of China. We discovered that about 41,500 organs have been taken from Falungong between 2001-2006. Ethan Gutmann in the book *State Organs* estimates that-- I know this is terrible--about 60,000 Falungong practitioners have been killed for their organs between 2000 and 2008. This is a terrible crime against humanity. It is (still) going on today.

And these people have the gall to show up and denounce us! ...

I am honoured to be here. I am honoured to be in Hong Kong. It is one of my favourite cities in the world. I am proud of all of you. I am proud of all the people of Hong Kong, who know what they stand for. And I am convinced that next year, the "610" office will remove these people, because they know they are only hurting their vile cause.

Forgive me for going on for so long. I hope you hear something that I said.
